KEY INFORMATION

The Fumigation Company requires a key to be left at the residence during the fumigation. The homeowner/agent/tenant or RESPONSIBLE party MUST leave a key on the property for all locked doors, which include front doors, sliding doors, back doors, garage doors, bedroom doors, cabinets, safes, sheds, toolboxes, etc. For all other locks controlled only by a coded number pad, other measures will be taken to secure the home by secondary lock.

Cars left in the garage or carport during fumigation must be left unlocked with the windows rolled down and trunk left opened, or a key must be provided. We highly recommend not leaving vehicles parked in driveways during the fumigation.

Please be informed that there is a possibility that your fumigation could be cancelled if doors are not left unlocked or keys are not provided. Should this happen, your fumigation will be rescheduled to the next fumigation date First Class Fumigation has available.

FUMIGATION ADDRESS: _____

FUMIGATION DATES: _____

KEYS WILL BE LEFT AT: _____

(Specific location: Under mat, in BBQ, Under potted plant, etc)

RETURN KEY (S) TO: _____

(Keys will be returned to the first location noted above if not specified)
